## **Director's message**

The ICAR-IARI Telephone Directory – 2026 reflects our Institute's commitment to seamless communication, institutional coherence and responsive governance. As we advance towards greater digital integration and service excellence, the availability of accurate and accessible contact information becomes a critical enabler of collaboration across divisions and disciplines. This directory is envisioned not merely as a reference but as a living tool that supports efficiency, transparency and connectivity within the Institute. I commend the efforts of all those involved in its preparation and encourage continued cooperation in keeping it updated and relevant for the benefit of all stakeholders.
