IARI INNOVATIVE FARMERS CONCLAVE

(23-24 December, 2025)

Background

Farmer-led innovations (FLIs) have emerged as a cornerstone of sustainable agricultural transformation, reflecting the creativity, ingenuity, and resilience of farming communities. Rooted in indigenous knowledge and experiential learning, these innovations often arise from farmers' continuous experimentation and adaptation to local challenges such as climate variability, resource constraints, and market fluctuations. Unlike conventional top-down models of agricultural development, farmer-led innovations embody a bottom-up approach where farmers act as co-creators of knowledge and technology rather than passive recipients. Farmers have identified and conserved indigenous crops and developed improved varieties through selection, resulting in enhanced productivity and quality. They have also created low-cost processing technologies that add value, extend shelf-life, and improve marketability of farm products. Additionally, farmers have designed and fabricated various implements and tools to enhance operational efficiency and productivity. Women farmers have played a vital role in germplasm conservation, post-harvest management, and value addition, contributing significantly to increased farm income.

Over the years, participatory and collaborative approaches such as Participatory Innovation Development, Participatory Rural Appraisal, and Farmer Field Schools have strengthened the integration of farmer innovations into formal research and extension systems. Platforms such as the Honey Bee Network, National Innovation Foundation (NIF), and institutional initiatives under ICAR and SAUs have created pathways to document, validate, and scale farmer-led innovations. The growing emphasis on documentation, validation, and scaling of FLIs signals a new phase in agricultural innovation—one that promotes inclusivity, gender responsiveness, and intergenerational learning. Yet, several challenges persist, including the lack of standardized documentation methods, limited financial support, weak institutional coordination, and inadequate recognition mechanisms for innovators. Addressing these gaps requires stronger partnerships among farmers, researchers, extension agencies, and policymakers.

Opportunities

The growing emphasis on farmer-led innovation presents a wide range of opportunities to strengthen agricultural transformation through collaboration, capacity building, and institutional support. Knowledge integration offers a pathway for enhanced collaboration between farmers and researchers, allowing the blending of local wisdom with modern scientific approaches for context-specific and sustainable solutions. Capacity building initiatives such as participatory experimentation, tinkering labs, and innovation platforms can further strengthen farmers' problem-solving and technical skills. The advancement of documentation and digitalization enables the development of standardized protocols, repositories, and ICT-based tools for efficient mapping, cataloguing, and sharing of innovations across regions. Equally important is participatory validation, which emphasizes the use of multi-dimensional assessment tools that evaluate technical effectiveness, economic viability, social relevance, and environmental sustainability of innovations. The scaling and institutionalization of proven innovations can be achieved by leveraging extension systems, innovation funds, and public–private–community partnerships, complemented by accelerator labs and incubators that facilitate broader diffusion and commercialization. Greater inclusivity through the active participation of women and youth in innovation processes can lead to a more gender-responsive and generationally balanced innovation ecosystem, reinforcing the long-term sustainability of farmer-led innovation in India.

Challenges

Despite the growing recognition of farmer-led innovations, several challenges continue to constrain their wider impact and institutionalization. The absence of standardized methodologies and regional databases hampers systematic documentation and knowledge sharing of local innovations. Validation complexities arise due to the difficulty of applying uniform scientific parameters to highly context-specific grassroots innovations. Limited financial and institutional mechanisms further restrict scaling and diffusion beyond local settings, while inadequate frameworks for recognition and benefit-sharing pose ethical concerns related to intellectual property rights and equitable rewards for innovators. Weak institutional coordination among research, extension, and innovation-support organizations results in fragmented efforts, reducing the efficiency of support systems. Additionally,

awareness and outreach barriers limit the visibility of successful innovations due to insufficient dissemination platforms and poor networking with skilled professionals or advisory bodies. These challenges, coupled with financial and contextual pressures, hinder the long-term sustainability and scaling of farmer-led innovations. There has been an urgent need for stronger institutional linkages, inclusive funding models, supportive policy frameworks and private sector support for mainstreaming and commercializing scalable, location-specific farmer-led innovations.

Way Forward: Dialogue and Collaboration

The Innovative Farmers Conclave will act as a knowledge-exchange and policy-dialogue platform, addressing the full continuum of farmer-led innovations from conceptualization and documentation to validation and institutionalization. It aims to bridge the gap between grassroots creativity and formal agricultural systems, paving the way for inclusive, resilient, and innovation-driven rural development.

This conclave will:

- Facilitate dialogue on concepts, processes, and characterization of FLIs to understand their diversity and local relevance.
- Strengthen awareness on knowledge co-creation and participatory validation to bridge farmer experience with scientific rigour.
- Promote documentation, evaluation, and scaling mechanisms that ensure equitable benefit-sharing and institutional recognition.
- Foster policy-level convergence for supporting grassroots innovations through innovation funds, incubators, awards, and accelerator labs.

By creating a collaborative platform, the programme aims to reinforce farmers' roles as co-creators of innovation rather than passive beneficiaries, advancing the vision of sustainable and farmer-driven agricultural development.

IARI Innovative Farmers Conclave Programme

Day 1: 23 December, 2025

Venue: Auditorium, Division of Agricultural Engineering

9.30 AM-10.30 AM

Inaugural Session

Technical Sessions

11.30 AM - 1.15 PM

Session 1: Innovations in Natural Resource Management/IFS/Crop Diversification

Chair : Dr. Ch. Srinivasa Rao, Director, ICAR-IARI, New Delhi

Co-Chair : Shri Sundaram (Innovative Farmer)

Shri Sethpal Singh (Fellow Farmer)

Convener : Dr. Sanjay Rathore, Head, Division of Agronomy

Dr. S. Naresh Kumar, Head, Environment Science

Rapporteurs:

- Dr. Renu Singh, Principal Scientist, Environment Science
- Dr. Vijay Prajapati, Scientist, Water Technology Centre
- Dr. Praveen Upadhyay, Scientist, Agronomy
- Dr. Bipin Kumar, Scientist, Agronomy
- Dr. M. Balasubramanian, Scientist, Agril. Economics

Group Discussion

Panelists:

Innovative/Fellow Farmers

- Sh. Gadde Satish Babu
- Sh. Jitendra Kumar Singh
- Sh. Ganga Ram Sepat
- Sh. Abhishek Dhama
- Sh. Prakash Mohanlal Bafna

Official

- Dr. Rajeev Kumar, (Principal Scientist, Agronomy)

IARI Innovative Farmers

1.15 PM

Lunch

2.00 PM - 3.30 PM

Session 2: Innovations in Crop and Horticulture Sciences

Chair : Dr. C. Viswanathan, Joint Director (Research), ICAR-IARI, New Delhi

Co-Chair : Shri Bharat Bhushan Tyagi (Fellow Farmer)

Shri Hariman Sharma (Fellow Farmer)

Convener : Dr. Gopala Krishnan, Head, Division of Genetics, ICAR-IARI, New Delhi

Dr. O.P. Awasthi, Head, Division of F&HT, ICAR-IARI, New Delhi

Rapporteurs:

- Dr. Prolay Bhoomick, Scientist (Genetics)
- Dr. Gograj Singh Jat, Scientist (Vegetable Science)
- Dr. Soma Gupta (Scientist, Genetics)
- Dr. Nithyashree M.L. (Scientist, Ag. Economics)
- Dr. Sitaram Bishnoi (Scientist, Ag. Extension)

Group Discussion

Panelists:

Innovative/Fellow Farmers

- Sh. Narendra Singh Sipani
- Sh. Pritam Singh
- Sh. Agya Ram
- Sh. Dharendra Kumar Bhanubhai
- Sh. S. Venkateshwaran
- Sh. Narendra Singh Mehra
- Sh. S.S. Paramesh Kodiyala

Official

- Sh. Umakant Dubey (Joint Registrar, PPV&FRA)

IARI Innovative Farmers

3.30 PM

Tea Break

4.00 PM - 5.30 PM

Session 3: Empowering women for farmer-led innovation

Chair : Dr. Anupama Singh, Joint Director (Edu.) & Dean, ICAR-IARI, New Delhi
Co-Chair : Smt. Pooja Sharma (Fellow Farmer)
Smt. Binita Kumari (Fellow Farmer)
Convener : Dr. Alka Singh, Head, Division of Agricultural Economics)
Dr. Akriti Sharma, In-Charge, ZTM&BPD

Rapporteurs:

- Dr. Rashmi Singh, Principal Scientist, Agricultural Extension
- Dr. Shruti Sethi, Sr. Scientist, FS&PHT
- Dr. Misha Madhawan, Scientist, Agricultural Extension
- Dr. Sukanya Barua, Scientist, Agricultural Extension
- Dr. Renjini VR, Scientist, Agricultural Economics

Group Discussion

Panelists:

Innovative/Fellow Farmers

- Smt. Meena Kumari
- Smt. Swapna James
- Smt. Bandana Kumari
- Smt. Preeti Bhandari
- Smt. Manju Rani Kashyap
- Smt. Neelam Tyagi

Official

- Dr. Hardev Chodhary (Scientist E, NIF)

IARI Innovative Farmers

5.30 PM

Tea Break

6.00 PM -8.00 PM

Cultural Evening

Chair : Dr Debashish Mandal, Head, Division of Soil Science & Agricultural Chemistry
Convener : Sri Shiv Nandan Lal, All India Radio
Venue : Auditorium, Division of Agricultural Engineering

8.00 PM

Dinner

Day 2: 24 December, 2025

9.30 AM - 11.00 AM

Session 4: Group Mobilization and Entrepreneurship

Chair : Dr. R.N. Padaria, Joint Director (Extension), ICAR-IARI, New Delhi
Co-Chair : Shri Kanwal Singh Chauhan (Fellow Farmer)
Shri Genabhai Dargabhai Patel (Fellow Farmer)
Convener : Dr. Satyapriya, Head, Division of Agril. Extension, ICAR-IARI, N. Delhi
Dr. M.S. Nain, Professor, Division of Agril. Extension, ICAR-IARI, N. D.

Rapporteurs:

- Dr. NV Kumbhare (Principal Scientist, Ag. Extension)
- Dr. Subhashree Sahoo (Scientist, Ag. Extension)
- Dr. Misha Madhavan (Scientist, Ag. Extension)

Group Discussion

Panelists:

Innovative/Fellow Farmers

- Sh. Sanjeev Kumar
- Sh. Kishan Lal Jat Deshma
- Sh. Sukhjeet Singh Bhangu
- Sh. Pandurang Bhagvanrao Taware
- Sh. Irshad Ahmad Dar
- Sh. Nellikkuzhi Kuriakkose Kurian
- Sh. Sri Krishna S. Shinde

Official

- Dr. Nitin Maurya (Scientist E, NIF)

IARI Innovative Farmers

11.00 AM

Tea Break

11.30 AM - 1.15 PM

Session 5: Farm Mechanization for enhancing efficiency and reducing drudgery

Chair : Dr. P. S. Brahmanand, Project Director, Water Technology Centre
Co-Chair : Col. Subhash Deshwal (Fellow Farmer)
Sh. Satyawar Sehrawat (Fellow Farmer)
Convener : Dr. P. K. Sahoo, Head, Division of Agril. Engineering, ICAR-IARI, New Delhi
Dr. J.P.Sinha, In-Charge, FOSU

Rapporteurs:

- Dr. Dilip Kushwaha, Scientist, Agril. Engineering
- Dr. Satish D. Lande, Scientist, Agril. Engineering
- Dr. Rouf Ahmad, Scientist, Agril. Engineering
- Dr. Praveen K.V., Scientist, Agril. Economics

Panelists:

Innovative/Fellow Farmers

- Sh. Gurpreet Singh Shergill
- Sh. Ashwani
- Singh Chouhan
- Sh. Dharmpal Singh Duhoon
- Sh. R. Ranjit Kumar
- Sh. Musharraf Khalil

Official

- Dr. D.K. Singh (Principal Scientist, Agril. Engineering)

Group Discussion

IARI Innovative Farmers

1.15 PM

Lunch Break

2:00 PM - 3.00 PM

Session 6: Strategies for validation and promotion of farmers' innovations

Chair : Dr. Ch. Srinivasa Rao, Director, ICAR-IARI, New Delhi
Co-Chair : Shri Sultan Singh (Entrepreneur)
Sh. Mahadev Sahani (Innovative Farmer)
Convener : Dr. A.K. Singh, Head, CATAT, ICAR-IARI, New Delhi
Dr. Nafees Ahmad, Principal Scientist, CATAT, ICAR-IARI, New Delhi

Rapporteurs:

- Dr. Punitha P (Scientist, CATAT)
- Dr. Paratibha Joshi (Sr. Scientist, CATAT)
- Dr. Alka Joshi (Scientist, FS&PHT)
- Dr. Seema Sangwan (Scientist, Microbiology)
- Dr. Subhash Babu (Sr. Scientist, Agronomy)
- Dr. Utkarsh Tiwari (Scientist, Agril. Economics)

Panelists:

Innovative/Fellow Farmers

- Sri Bharat Bhushan Tyagi
- Sri Pritam Singh
- Sh. Ravindra Manikrao Metkar
- Sh. Jagpal Singh Phogat

Official

- Dr Nitin Maurya (Scientist E, NIF)
- Dr Hardev Choudhary (Scientist E, NIF)
- Dr. C. Viswanathan, JD (Research)
- Dr. Anupama Singh, JD (Education)
- Dr. R. N. Padaria, JD (Extension)
- Dr. P Brahmanand, PD (WTC)

Valedictory Session

3.00 PM-4.30 PM

Venue: Auditorium, Division of Agricultural Engineering

4.30 PM

High Tea

Working Committees

1. Coordination Committee

1.	Dr Ch. Srinivasa Rao	Director	Chairman
2.	Dr. R.N. Padaria	Joint Director (Extension)	Co-Chairman
3.	Dr. C. Viswanathan	Joint Director (Research)	Member
4.	Dr. Anupama Singh	Dean & Joint Director (Education)	Member
5.	Dr. P.S. Brahmanand	Project Director, WTC	Member
6.	Sri P.K. Jain	Joint Director (Administration)	Member
7.	Sri Avesh	Comptroller	Member
8.	Dr. A.K. Singh	Head, CATAT	Member

2. Farmers Mobilization Committee

1.	Dr. Nafees Ahmad	Principal Scientist, CATAT	Chairman
2.	Dr. N.V. Kumbhare	Principal Scientist, ATIC	Co-Chairman
3.	Dr. Pratibha Joshi	Senior Scientist, CATAT	Member
