Dated: 02-09-2021

No. 183-01/20-21/ M.E. Unit

e-TENDER NOTICE

Online quotation are hereby invited on behalf of the Director, IARI from the Contractors Registered with CPWD, MES, Railways, MCD, PWD or other Central/State Govt./Semi Govt. The contractor must have valid PAN and GST registration number and having experience of two similar nature of works in last three years for the work mentioned below:

Name of work & location	Estimated cost (₹)	Earnest Money (₹)	Last date & time of bid	Date & time of
Replacement of four aluminum framed			submission	bid opening
shutters & renovation of PGSSU office at P.G. Hostel, at IARI New Delhi-110012.	₹ 3,47,400.00	₹ 7,000.00	Upto14:30 hours 23.09.2021	24.09.2021 at15:00 hours

₹ 7,000/- (Rupees Seven Thousand Only) should be in the form of D.D./Pay Order/Fixed Deposit Receipt/Bank Guarantee from nationalize bank drawn in favour of Director, IARI payable at New Delhi. The original EMD and cost of tender ₹ 500/- (Rupees five hundred only) in the form of DD/PO drawn in favour of Director, IARI payable at New Delhi shall be submitted to the Tender Inviting Authority on or before the last date and time of online bid submission. The details of D.D./Pay Order/Fixed Deposit Receipt/Bank Guarantee physically sent, should tally with the details available in the scan copy and the data entered during the online bid submission time otherwise the uploaded bid will be rejected.

The Online Tender Documents are available on IARI Website www.iari.res.in. & Central Portal www.eprocure.gov.in . Bids are to be submitted on central portal i.e. www.eprocure.gov.in .

Asstt. Admn. Officer (Works)

•

No: 183-01/21-22/ M.E. Unit

Name of the work: Replacement of four aluminum framed shutters & renovation of PGSSU office at P.G. Hostel, at IARI New Delhi-110012.

ESTIMATE/SCHEDULE OF WORK

S. No.	Particular	Qty	Rate	Unit	Amount
1.	Providing and fixing aluminium work for doors, windows,	65	456.30	Kg	29659.50
	ventilators and partitions with extruded built up standard tubular				
	sections/ appropriate Z sections and other sections of approved make conforming to IS: 733 and IS: 1285, fixing with dash				
	fasteners of required dia and size, including necessary filling up				
	the gaps at junctions, i.e. at top, bottom and sides with required				
	EPDM rubber/ neoprene gasket etc. Aluminium sections shall be				
	smooth, rust free, straight, mitred and jointed mechanically				
	wherever required including cleat angle, Aluminium snap beading for glazing / paneling, C.P. brass / stainless steel				
	screws, all complete as per architectural drawings and the				
	directions of Engineer-in-charge. (Glazing, panelling and dash				
	fasteners to be paid for separately): 21.1.1.2 Powder coated				
	aluminium (minimum thickness of powder coating 50 micron)	10	4447.0	G.	53354 00
2.	21.18 Providing and fixing 12 mm thick frameless toughened glass door shutter of approved brand and manufacture, including	12	4447.9	Sqm	53374.80
	providing and fixing top & bottom pivot & double action hydraulic				
	floor spring type fixing arrangement and making necessary holes				
	etc. for fixing required door fittings, all complete as per direction				
	of Engineer-incharge (Door handle, lock and stopper etc.to be				
3.	paid separately). Providing and fixing aluminium tower bolts, ISI marked, anodised	16	116.80	Nos	1868.80
3.	(anodic coating not less than grade AC 10 as per IS: 1868)	16	110.00	1108	1000.00
	transparent or dyed to required colour or shade, with necessary				
	screws etc. complete: 9.97.1 300x10 mm				
4.	Providing and fixing aluminium tubular handle bar 32 mm outer	16	562.60	Nos	9001.60
	dia, 3.0 mm thick & 2100 mm long with SS screws etc .complete				
	as perdirection of Engineer-in-Charge. 21.12.2 Powder coated minimum thickness 50 micron aluminium tubular handle bar				
5.	Providing and fixing double action hydraulic floor spring of	08	2412.50	Nos	19300.00
	approved brand and manufacture conforming to IS: 6315,		211200	1,00	2,20000
	having brand logo embossed on the body / plate with double				
	spring mechanism and door weight upto 125 kg, for doors,				
	including cost of cutting floors, embedding in floors as required and making good the same matching to the existing floor				
	finishing and cover plates with brass pivot and single piece M.S.				
	sheet outer box with slide plate etc. complete as per the direction				
	of Engineer-in-charge. 21.4.1 With stainless steel cover plate				
	minimum 1.25 mm thickness		054.50	3.7	2405 10
6.	9.84 Providing and fixing aluminium extruded section body tubular type universal hydraulic door closer (having brand logo	04	851.60	Nos	3406.40
	with ISi, IS: 3564, embossed on the body, door weight upto 36				
	kg to 80 kg and door width from 701 mm to 1000 mm), with				
	double speed adjustment with necessary accessories and				
	screws etc. complete.				
7.	9.103 Providing and fixing bright finished brass 100 mm mortice	04	748.65	Nos	2994.60
	latch and lock, ISI marked, with six levers and a pair of anodised (anodic coating not less than grade AC 10 as per IS: 1868)				
	aluminium lever handles of approved quality with necessary				
	screws etc. complete.				
8.	Dismantling doors, windows and clerestory windows (steel or	04	274.50	Nos	1098.00
	wood) shutter including chowkhats, architrave, holdfasts etc.				
	complete and stacking within 50 metres lead :				
	15.12.1 Of area 3 sq. metres and below	L			

9. 12.53 Providing and Fixing 15 mm thick densified tegular edged actorinedly light veight calcium silicate false ceiling titles of approved texture of size 595 x 595 mm in true horizontal level, suspended on inter locking metal grid of hot dipped galvanised steel sections (galvanising @ 120 grams per sqm including both side) consisting of main Tr runner sutably spaced at joints to get required length and of size 24x38 mm made from 0.33 mm thick (minimum) sheet, spaced 1200 mm centre to centre, and cross "T" of size 24x28 mm made out of 0.33 mm (Minimum) sheet, spaced 1200 mm centre to centre, and cross "T" of size 24x28 mm made out of 0.33 mm thick (Minimum) sheet to be inter locked at middle of the 1200x 600 mm panel to from grid of size 60x600 mm, resting on periphery walls /partitions on a Perimeter wall angle pre-coated steel of size(24x24x3000 mm made of 0.40 mm thick (minimum) sheet with the help of rawl plugs at 450 mm centre to centre with 25 mm long dry wall screws @ 230 mm interval and laying 15 mm thick densified edges calicum silicate ceiling titles of approved texture in the grid, Including, outting making opening for services like diffusers, grills, light fittings, fixtures, smoke detectors etc., wherever required. Main "T runners to be suspended from ceiling using G.I. slotted cleats of size 25x35x1.6 mm fixed to ceiling with 12.5 mm dia and 50 mm long dash fasteners, 4 mm G.I. adjustable rods with galvanised steel level clips of size 85 x 30 x 0.8 mm, spaced at 1200 mm centre to centre slong main "T. bottom exposed with 24 mm of all Tsections shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. Providing and laying fixtrified titles in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.09% and conforming to 15: 15622, of approved brand & manufacturer to give an even shade: 13.60.1 Two or more coats on here work 11. 13.80 Providing and applying white	n	12.52 Providing and Fiving 15 mm thick densitied together added	25	1642.05	Came	E7E20 2E
approved texture of size 595 x 595 mm in true horizontal level, suspended on inter locking metal grid of hot dipped galvanised steel sections (galvanising @ 120 grams per spm including both side) consisting of main Tr unner suitably spaced at joints to get required length and of size 24x38 mm made from 0.33 mm thick (minimum) sheet, spaced 1200 mm centre to centre, and cross "T" of size 24x28 mm made out of 0.33 mm (Minimum) sheet, spaced 1200 mm anin T" at 600 mm centre to centre, and cross "T" of size 24x28 mm made out of 0.33 mm (Minimum) sheet, spaced 1200 mm anin T" at 600 mm centre to centre to form a grid of 1200x600 mm and secondary cross "T" of length 600 mm and size 24 x28 mm made of 0.33 mm tick (Minimum) sheet to be inter locked at middle of the 1200x 600 mm panel to from grid of size 60x600 mm, resign on periphery walls /partitions on a Perimeter wall angle pre-coated steel of size(24x24X3000 mm made of 0.40 mm thick (minimum) sheet with the help of raw plugs at 450 mm centre to centre with 25 mm long dry wall screws @ 230 mm interval and laying 15 mm thick densified edges calicum silicate ceiling tiles of approved lexture in the grid, including, cutting making opening for services like diffusers, grills. light fittings, fixtures, smoke detectors etc., wherever required. Main "T unners to be suspended from ceiling using G.I. slotted cleats of size 25x35x1.6 mm fixed to ceiling with 12.5 mm dia and 50 mm long dash fasteners, 4 mm G.I. adjustable rods with galvanised steel level clips of size 85 x 30 x 0.8 mm, spaced at 1200 mm centre to centre solong main "T bottom exposed with 24 mm of all Tsections shall be pre-painted with polyser baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. Providing and spring Wirtfled tiles in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.08% and conforming to 15x15522, of approved brand 3 manufacture of required colour to give an even shade: 133.00 mm o	۶.		33	1043.93	Sqiii	31330.43
suspended on inter locking metal grid of hot dipped galvanised steel sections (galvanising @ 120 grams per som including both side) consisting of main "T runner suitably spaced at joints to get required length and of size 24x88 mm made from 0.38 mm thick (minimum) sheet, spaced 1200 mm centre to centre, and cross "T" of size 24x28 mm made out 0.33 mm thick (Minimum) sheet to form a grid of 1200x600 mm and secondary cross "T" of length 600 mm and size 24 x28 mm made of 0.33 mm thick (Minimum) sheet to be inter locked at middle of the 1200x 600 mm panel to from grid of size 600x600 mm, resting on periphery walls /partitions on a Permeter well andige pre-coated steel of size(24x24x3000 mm made of 0.40 mm thick (minimum) sheet with the help of rawl plugs at 450 mm centre to centre with 25 mm long dry wall screws @ 220 mm interval and laying 15 mm thick densified edges calicum silicate celling tiles of approved texture in the grid, including, cutting making opening for services like diffusors, grilis, light fittings, fixtures, smoke detectors etc., wherever required. Main "T runners to be suspended from celling using G.I. slotted cleats of size 25x35x1.6 mm fixed to celling with 12.5 mm dia and 50 mm long dash fasteners, 4 mm G.I. adjustable rods with galvanised steel level clips of size 85 x 30 x 0.8 mm, spaced at 1200 mm centre to centre along main "T, bottom exposed with 24 mm of all "Sections shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. Providing and laying Viriffed titles in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.08% and conforming to 18:1:562z, of approved brand & manufacturer, in all colours and shade, laid with cement based pluty of approved brand & manufacturer of required colour to griss (Payment for growing of joints to be made separately), 11.49.2 Size of Tile 600x800 mm 11. 13.80 Providing and applying white cement based putty of average						
steel sections (galvanising © 120 grams per sgm including both side) consisting of main Tr runner sutiably spaced at plints to get required length and of size 24x38 mm made from 0.33 mm thick (minimum) sheet, spaced 1200 mm centre to centre, and cross 'T' of size 24x28 mm made out of 0.33 mm (Minimum) sheet, spaced 1200 mm long spaced between mainTT at 600 mm centre to centre to form a grid of 1200x600 mm and secondary cross 'T' of length 600 mm and size 24 x28 mm made of 0.33 mm thick (Minimum) sheet to be inter locked at middle of the 1200x 600 mm panel to from grid of size 260x600 mm, resting on petiphery walls /partitions on a Perimeter wall angle pre-coaled steel of size(24x24X3000 mm made of 0.40 mm thick (minimum) sheet with the help of rawl plugs at 450 mm centre to centre with 25 mm long dry wall screws © 230 mm interval and laying 15 mm thick densified edges calicum silicate ceiling tiles of approved texture in the grid, including, cutting/making opening for services like diffusers, grills, light fittings, fixtures, smoke detectors etc., wherever required. Main 'T' runners to be suspended from ceiling wish 12.5 mm dia and 50 mm long dash fasteners, 4 mm G.I. adjustable rods with galvanised steel level clips of size 65 x 30 x 0.8 mm, spaced at 1200 mm centre to centre along main 'T', bottom exposed with 24 mm of all Tacctions shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. Providing and laying Virified tiles in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.08% and conforming to 15:15622, of approved brand & manufacturer in all colours and shade, laid with cement based high polymer modified quick set tile adhesive (water based) conforming to 15: 15477, in average 6 mm thickness, including grouting of joints (Payment for grouting of joints to be made separately), 11.49.2 Size of Tile 600x600 mm 11. 13.80 Providing and applying white cement based put						
side) consisting of main 'T' runner suitably spaced at joints to get required length and of size 24x38 mm made from 0.33 mm thick (minimum) sheet, spaced 1200 mm centre to centre, and cross 'T' of size 24x28 mm made out of 0.33 mm (Minimum) sheet, 1200 mm long spaced between main'' at 600 mm centre to centre to form a grid of 1200x800 mm and secondary cross 'T' of length 600 mm and size 24 x28 mm made of 0.33 mm thick (Minimum) sheet to be inter locked at middle of the 1200x 600 mm panel to from grid of size 600x800 mm, resting on periphery walls (partitions on a Perimeter wall angle pre-coated steel of size(24x24x)3000 mm made of 0.40 mm thick (minimum) sheet with the help of rawl plugs at 480 mm centre to centre with 25 mm long dry wall screws @ 230 mm interval and laying 15 mm thick densified edges calicum silicate celling tiles of approved texture in the grid, including, cutting making opening for services like diffusers, grills. Ight titings, fixures, smoke delectors etc., wherever required. Main 'T' runners to be suspended from celling using 0.1. solted cleats of size 25x35x1.6 mm fixed to celling using 0.1. solted cleats of size 25x35x1.6 mm fixed to celling with 12.5 mm dia and 50 mm long dash fasteners. 4 mm G.I. adjustable rods with galvanised steel level clips of size 65 x 30 x 0.8 mm, spaced at 1200 mm centre to centre along main 'T. bottom exposed with 24 mm of all Tsections shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. Providing and laying Vitrified tiles in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.08% and conforming to IS:15622, of approved brand & manufacturer, in all colours and shade, laid with cement based high polymer modified quick set tile adhesive (water based) conforming to IS: 15477, in average 6 mm thickness, including grouting of joints (Payment for grouting of joints (Payment for grouting of joints (Payment for grouting of						
required length and of size 24x38 mm made from 0.33 mm thick (minimum) sheet, spaced 1200 mm centre to centre, and cross "T" of size 24x28 mm made out of 0.33 mm (Minimum) sheet, 1200 mm long spaced between main" at 600 mm centre to centre to form a grid of 1200x600 mm and secondary cross "T" of length 600 mm and size 24 x28 mm made of 0.33 mm thick (Minimum) sheet to be inter locked at middle of the 1200x 600 mm panel to from grid of size 600x600 mm, resting on periphery walls /partitions on a Perimeter wall angle pre-coated steel of size(24x24x3000 mm made of 0.40 mm thick (minimum) sheet with the help of rawl plugs at 450 mm centre to centre with 25 mm long dry wall screws @ 230 mm interval and laying 15 mm thick densified edges calicum slicetae celling tiles of approved texture in the grid, including, cutting" sinceres, smoke detectors etc., wherever required. Main "T runners to be suspended from celling using G.1. slotted cleats of size 25x35x1.6 mm fixed to celling with 12.5 mm dia and 50 mm long dash fasteners, 4 mm G.1. adjustable rods with galvanised steel level clips of size 85 x 30 x 0.8 mm, spaced at 1200 mm centre to centre along main "T. bottom exposed with 24 mm of all Tsections shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. Providing and laying Vitrified tiles in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.08% and conforming to 15:15622, of approved brand & manufacture with a manufacture of proved brand and manufacture of required and applying white cement based putty of average thinkness, including grouting of joints (Payment for grouting of joints to be made separately). 11.49.2 Size of Tile 500x500 mm 11. 13.80 Providing and applying white cement based putty of average thickness 1 mm, of approved brand and manufacture to give an even shade: 13.60.1 Two or more coats on new work 12. Wall painting with acrylic emulsion paint of approve						
(minimum) sheet, spaced 1200 mm centre to centre, and cross T" of size 24x28 mm made out of 0.33 mm (Minimum) sheet, 1200 mm long spaced between maint" at 600 mm centre to centre to form a gird of 1200x600 mm and secondary cross." of length 600 mm and size 24 x28 mm made of 0.33 mm thick (Minimum) sheet to be inter locked at middle of the 1200x 600 mm panel to from grid of size 600x600 mm, resting on periphery walls /partitions on a Perimeter wall angie pre-coated steel of size(24x24X3000 mm made of 0.40 mm thick (minimum) sheet with the help of rawl plugs at 450 mm centre to centre with 25 mm long dry wall screws @ 230 mm interval and laying 15 mm thick densified edges calicum silicate ceiling tiles of approved texture in the grid, including, cutting/ making opening for services like diffusers, grills, light fittings, fixtures, smoke detectors etc., wherever required. Main T" runners to be suspended from ceiling using G.I. slotted cleats of size 25x35x1.6 mm fixed to ceiling with 12.5 mm dia and 50 mm long dash fasteners, 4 mm G.I. adjustable rods with galvanised steel level clips of size 85 x 30 x 0.8 mm, spaced at 1200 mm centre to centre along main T' bottom exposed with 24 mm of all Tsections shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. Providing and laying Vitrified tiles in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.08% and conforming to 15:15622, of approved brand & manufacturer, in all colours and shade, laid with cement based high polymer modified quick set tile adhesive (water based) conforming to 15: 15477, in average 6 mm thickness, including grouting of joints (Payment for grouting of joints to be made separately).11.48.2 Size of Tile 800x600 mm 11. 13.80 Providing and applying white cement based putty of average thickness 1 mm, of approved brand and manufacture to give an even shade: 13.60.1 Two or more coats on new work 12. Wall pain						
i'Tr of size 24x28 mm made out of 0.33 mm (Minimum) sheet, 1200 mm long spaced between main'T at 600 mm centre to centre to form a gird of 1200x600 mm and secondary cross 'T' of length 600 mm and size 24 x28 mm made of 0.23 mm thick (Minimum) sheet to be inter locked at middle of the 1200x 600 mm panel to from gird of size 600x600 mm, resting on periphery walls 'partitions on a Perimeter wall angle pre-coated steel of size(24x24X3000 mm made of 0.40 mm thick (minimum) sheet with the help of rawl plugs at 465 mm centre to centre with 25 mm long dry wall screws @ 230 mm interval and laying 15 mm thick densified edges calicum silicate celling tiles of approved texture in the gird, including, cutting' making opening for services like diffusers, grills, light fittings, fixtures, smoke detectors etc., wherever required. Main 'T' runners to be suspended from celling using GI. slotted cleast of size 25x35x16 mm fixed to celling with 12.5 mm dia and 50 mm long dash fasteners, 4 mm GI. adjustable rods with galvanised steel level clips of size 58 x 30 x 30.8 mm, spaced at 1200 mm centre to centre along main 'T. bottom exposed with 24 mm of all Tsections shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. Providing and laying Vitrified tiles in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.08% and conforming to IS:15622, of approved brand & manufacturer, in all colours and shade, laid with cement based high polymer modified quick set tile adhesive (water based) conforming to IS: 15477, in average 6 mm thickness, including grouting of loints (Payment for grouting of joints to be made separately). 11.49.2 Size of Tile 600x600 mm 11. 13.80 Providing and applying white cement based putty of average thickness 1 mm, of approved brand and manufacturer, over the plastered wall surface to prepare the surface even and smooth complete. 12. Wall painting with synthetic enamel paint						
1200 mm long spaced between mainT" at 600 mm centre to centre to form a gird of 1200x800 mm and secondary cross T" of length 600 mm and size 24 x28 mm made of 0.33 mm thick (Minimum) sheet to be inter locked at middle of the 1200x 600 mm panel to from gird of size 600x600 mm, resting on periphery walls /partitions on a Perimeter wall angle pre-coated steel of size/24x24X3000 mm made of 0.40 mm thick (minimum) sheet with the help of rawl plugs at 450 mm centre to centre with 25 mm long dry wall screws @ 250 mm interval and laying 15 mm thick densified edges calcium silicate celling tiles of approved texture in the gird, including, cutting/ making opening for services like diffusers, grills, light fittings, fixtures, smoke detectors etc., wherever required. Main T" runners to be suspended from celling using G.I. slotted cleats of size 25x35x1.6 mm fixed to celling with 12.5 mm dia and 50 mm long dash fasteners. 4 mm G.I. adjustable rods with galvanised steel level clips of size 85 x 30 x 0.8 mm, spaced at 1200 mm centre to centre along main T'. bottom exposed with 24 mm of all Tsections shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. Providing and laying Vitrified tiles in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.08% and conforming to 15:15622, of approved brand & manufacturer, in all colours and shade, laid with cement based high polymer modified quick set tile achesive (water based) conforming to 15: 15477, in average 6 mm thickness, including grouting of joints (Payment for grouting of joints to be made separately). 11.49. 2 Size of Tile 600x600 mm 11. 13.80 Providing and applying white cement based putty of average thickness 1 mm, of approved brand and manufacturer of required colour to give an even shade: 13.60.1 Two or more coats on new work 12. Wall painting with synthetic enamel paint of approved brand and manufacturer of required colour to giv						
centre to form a grid of 1200x600 mm and secondary cross T of length 600 mm and size 24 x28 mm made of 0.33 mm thick (Minimum) sheet to be inter locked at middle of the 1200x 600 mm panel to from grid of size 600x600 mm, resting on periphery walls /partitions on a Perimeter wall angle pre-coated steel of size(24x24X3000 mm made of 0.40 mm thick (minimum) sheet with the help of rawl plugs at 450 mm centre to centre with 25 mm long dry wall screws @ 230 mm interval and laying 15 mm thick densified edges calicum slicate ceiling tiles of approved texture in the grid, including, cutting/ making opening for services like diffusers, grills, light fittings, fixtures, smoke detectors etc., wherever required. Main T runners to be suspended from ceiling using G.I. slotted cleats of size 25x35x16 mm fixed to ceiling with 12.5 mm dia and 50 mm long dash fasteners, 4 mm G.I. adjustable rods with galvanised steel level clips of size 85 x 30 x 0.8 mm, spaced at 1200 mm centre to centre along main T, bottom exposed with 24 mm of all Tsections shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineeri-n-Charge. 10. Providing and aligning Vitified lites in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.08% and conforming to IS: 15477, in average 6 mm thickness, including grouting of joints (Payment for grouting of joints to be made separately). 11.49.2 Size of Tile 600x600 mm 11. 13.80 Providing and applying white cement based putty of average thickness in mm, of approved brand and manufacturer, over the plastered wall surface to prepare the surface even and smooth complete. 12. Wall painting with acrylic emulsion paint of approved brand and manufacture of required colour to give an even shade: 13.60.1 Two or more coats on the work on the dumping ground within 50 meters lead. 13. Painting with synthetic enamel paint of approved brand and manufacturer of required colour to give an even shade: 13.00.						
length 600 mm and size 24 x28 mm made of 0.33 mm thick (Minimum) sheet to be inter locked at middle of the 1200x 600 mm panel to from grid of size 600x600 mm, resting on periphery walls /partitions on a Perimeter wall angle pre-coated steel of size(24x24X3000 mm made of 0.40 mm thick (minimum) sheet with the help of rawl plugs at 450 mm centre to centre with 25 mm long dry wall screws @ 230 mm interval and laying 15 mm thick densified edges calicum silicate ceiling tiles of approved texture in the grid, including, cutting/ making opening for services like diffusers, grills, light fittings, fixtures, smoke detectors etc., wherever required. Main 'T' runners to be suspended from ceiling using G.I. slotted cleats of size 25x35x1.6 mm fixed to ceiling with 12.5 mm dia and 50 mm long dash fasteners. 4 mm G.I. adjustable rods with galvanised steel level clips of size 85 x 30 x 0.8 mm, spaced at 1200 mm centre to centre along main T', bottom exposed with 24 mm of all Tsections shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. Providing and laying Vitrified tiles in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.08% and conforming to IS:15622, of approved brand & manufacturer, in all colours and shade, laid with cernent based high polymer modified quick set tile adhesive (water based) conforming to IS: 15477, in average 6 mm thickness, including grouting of joints (Payment for grouting of joints) Payment for grouting of joints (Payment for grouting of joints) Payment for grouting of joints (Payment for grouting of joints)						
(Minimum) sheet to be inter locked at middle of the 1200x 600 mm panel to from grid of size 600x600 mm, resting on periphery walls /partitions on a Perimeter wall angle pre-coated steel of size(24x24X3000 mm made of 0.40 mm thick (minimum) sheet with the help of rawl plugs at 450 mm centre to centre with 25 mm long dry wall screws @ 230 mm interval and laying 15 mm thick densified edges calicum slicate celling tiles of approved texture in the grid, including, cutting/ making opening for services like diffusers, grills, light fittings, fixtures, smoke detectors etc, wherever required. Main 'T' runners to be suspended from celling using G.I. slotted cleats of size 25x35x16 mm fixed to celling with 12.5 mm dia and 50 mm long dash fasteners, 4 mm G.I. adjustable rods with galvanised steel level clips of size 85 x 30 x 0.8 mm, spaced at 1200 mm centre to centre along main 'T'. bottom exposed with 24 mm of all Tsections shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. Providing and laying Vitrified tiles in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.08% and conforming to 15:15622, of approved brand & manufacturer, in all colours and shade, laid with cement based high polymer modified quick set tile adhesive (water based) conforming to 15: 1547; in average 6 mm thickness, including grouting of joints (Payment for grouting of joints to be made separately). 11.49.2 Size of Tile 600x600 mm 11. 13.80 Providing and applying white cement based putty of average thickness 1 mm, of approved brand and manufacturer over the plastered wall surface to prepare the surface even and smooth complete. 12. Wall painting with acrylic emulsion paint of approved brand and manufacture to give an even shade: 13.90.1 Two or more coats on new work. 13. Painting with synthetic enamel paint of approved brand and manufacture of required colour to give an even shade: 13.99.1 One or more c		,				
mm panel to from grid of size 600x600 mm, resting on periphery walls /partitions on a Perimeter wall angle pre-coated steel of size(24x24X3000 mm made of 0.40 mm thick (minimum) sheet with the help of rawl plugs at 450 mm centre to centre with 25 mm long dry wall screws @ 230 mm interval and laying 15 mm thick densified edges calicum silicate ceiling tiles of approved texture in the grid, including, cutting/ making opening for services like diffusers, grills, light fittings, fixtures, smoke detectors etc., wherever required. Main T' runners to be suspended from ceiling using G.I. slotted cleats of size 25x35x1.6 mm fixed to ceiling with 12.5 mm dia and 50 mm long dash fasteners, 4 mm G.I. adjustable rods with galvanised steel level clips of size 85 x 30 x 0.8 mm, spaced at 1200 mm centre to centre along main T', bottom exposed with 24 mm of all Tsections shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. Providing and laying Vitrified tiles in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.08% and conforming to 1S:15622, of approved brand & manufacturer in all colours and shade, laid with cement based high polymer modified quick set tile adhesive (water based) conforming to 1S:15627, in average 6 mm thickness, including grouting of joints (Payment for grouting of j		length 600 mm and size 24 x28 mm made of 0.33 mm thick				
walls /partitions on a Perimeter wall angle pre-coated steel of size(24x24X300 mm made of 0.40 mm thick (minimum) sheet with the help of rawl plugs at 450 mm centre to centre with 25 mm long dry wall screws @ 230 mm interval and laying 15 mm thick densified edges calicum silicate ceiling tiles of approved texture in the grid, including, cutting/ making opening for services like diffusers, grills, light fittings, fixtures, smoke detectors etc., wherever required. Main Trunners to be suspended from ceiling using G.I. slotted cleats of size 25x35x16 mm fixed to ceiling with 12.5 mm dia and 50 mm long dash fasteners, 4 mm G.I. adjustable rods with palvanised steel level clips of size 85 x 30 x 0. 0.8 mm, spaced at 1200 mm centre to centre along main Tr. bottom exposed with 24 mm of all Tsections shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. Providing and alying Vitified tiles in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.08% and conforming to IS:15622, of approved brand & manufacturer, in all colours and shade, laid with cement based high polymer modified quick set tile adhesive (water based) conforming to IS: 15477, in average 6 mm thickness, including grouting of joints (Payment for grouting of joints to be made separately). 11.49.2 Size of Tile 600x600 mm 11. 13.80 Providing and applying white cement based putty of average thickness 1 mm, of approved brand and manufacturer, over the plastered wall surface to prepare the surface even and smooth complete. 12. Wall painting with acrylic emulsion paint of approved brand and manufacture to give an even shade: 13.60.1 Two or more coats on new work 13. Painting with sortylic enamic paint of approved brand and manufacture of required colour to give an even shade: 13.99.1 One or more coats on old work 14. 15.56 Dismantling old plaster or skirting raking out joints and cleaning the surface for plaster includi		(Minimum) sheet to be inter locked at middle of the 1200x 600				
size(24x24X3000 mm made of 0.40 mm thick (minimum) sheet with the help of rawl plugs at 450 mm centre to centre with 25 mm long dry wall screws @ 230 mm interval and laying 15 mm thick densified edges calicum silicate ceiling tiles of approved texture in the grid, including, cutting/ making opening for services like diffusers, grills, light fittings, fixtures, smoke detectors etc., wherever required. Main 'T' runners to be suspended from ceiling using G.I. slotted cleats of size 25x35x16 mm fixed to ceiling with 12.5 mm dia and 50 mm long dash fasteners, 4 mm G.I. adjustable rods with galvanised steel level clips of size 85 x 30 x 0.8 mm, spaced at 1200 mm centre to centre along main 'T'. bottom exposed with 24 mm of all Tsections shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. Providing and laying Vitrified tiles in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.08% and conforming to IS:15622, of approved brand & manufacturer, in all colours and shade, laid with cement based high polymer modified quick set tile adhesive (water based) conforming to IS: 15477, in average 6 mm thickness, including grouting of joints (Payment for grouting of joints to be made separately). 11.49.2 Size of Tile 600x600 mm 11. 13.80 Providing and applying white cement based putty of average thickness 1 mm, of approved brand and manufacturer, over the plastered wall surface to prepare the surface even and smooth complete. 12. Wall painting with acrylic emulsion paint of approved brand and manufacture for equired colour to give an even shade: 13.60.1 Two or more coats on new work 13. Painting with synthetic enamel paint of approved brand and manufacture of required colour to give an even shade: 13.60.1 Two or more coats on new work 14. 15.56 Dismantling old plaster or skirting raking out joints and cleaning the surface for plaster including disposal of rubbish to the dumping gro		mm panel to from grid of size 600x600 mm, resting on periphery				
with the help of rawl plugs at 450 mm centre to centre with 25 mm long dry wall screws @ 230 mm interval and laying 15 mm thick densified edges calicum silicate ceiling tiles of approved texture in the grid, including, cutting/ making opening for services like diffusers, grills, light fittings, fixtures, smoke detectors etc., wherever required. Main 'T' runners to be suspended from ceiling using G.I. slotted cleats of size 25x35x1 6 mm fixed to ceiling with 12.5 mm dia and 50 mm long dash fasteners, 4 mm G.I. adjustable rods with galvanised steel level clips of size 85 x 30 x 0.8 mm, spaced at 1200 mm centre to centre along main 'T', bottom exposed with 24 mm of all Tsections shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. Providing and laying Vitrified tiles in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.08% and conforming to IS:15622, of approved brand & manufacturer, in all colours and shade, laid with cement based high polymer modified quick set tile adhesive (water based) conforming to IS: 15477, in average 6 mm thickness, including grouting of joints (Payment for grouting of joints to be made separately). 11.49.2 Size of Tile 600x600 mm 11. 13.80 Providing and applying white cement based putty of average thickness 1 mm, of approved brand and manufacturer to give an even shade: 13.60.1 Two or more coats on new work 12. Wall painting with acrylic emulsion paint of approved brand and manufacture to give an even shade: 13.99.1 One or more coats on old work 13. Painting with synthetic enamel paint of approved brand and manufacture of required colour to give an even shade: 13.99.1 One or more coats on lod work 14. 15.56 Dismantling old plaster or skirting raking out joints and cleaning the surface for plaster including disposal of rubbish to the dumping ground within 50 metres lead. 15. 8.31 Providing and fixing ist quality ceramic glazed wall tiles		walls /partitions on a Perimeter wall angle pre-coated steel of				
mm long dry wall screws @ 230 mm interval and laying 15 mm thick densified edges calicum silicate ceiling tiles of approved texture in the grid, including, cutting/ making opening for services like diffusers, grills, light fittings, fixtures, smoke detectors etc., wherever required. Main "T runners to be suspended from ceiling using G.I. slotted cleats of size 25x35x1.6 mm fixed to ceiling with 12.5 mm dia and 50 mm long dash fasteners, 4 mm G.I. adjustable rods with galvanised steel level clips of size 85 x 30 x 0.8 mm, spaced at 1200 mm centre to centre along main "T, bottom exposed with 24 mm of all Tsections shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. Providing and laying Vitrified tiles in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.08% and conforming to IS:15622, of approved brand & manufacturer, in all colours and shade, laid with cement based high polymer modified quick set tile adhesive (water based) conforming to IS: 15477, in average 6 mm thickness, including grouting of joints (Payment for grouting of joints to be made separately). 11.49.2 Size of Tile 600x600 mm 11. 13.80 Providing and applying white cement based putly of average thickness 1 mm, of approved brand and manufacturer, over the plastered wall surface to prepare the surface even and smooth complete. 12. Wall painting with acrylic emulsion paint of approved brand and manufacture to give an even shade: 13.60.1 Two or more coats on new work 13. Painting with synthetic enamel paint of approved brand and manufacture required colour to give an even shade: 13.99.1 One or more coats on old work 14. 15.56 Dismantling old plaster or skirting raking out joints and cleaning the surface for plaster including disposal of rubbish to the dumping ground within 50 metres lead. 15. 8.31 Providing and fixing Ist quality ceramic glazed wall tiles conforming to IS: 15622 (thickness to be specif		size(24x24X3000 mm made of 0.40 mm thick (minimum) sheet				
mm long dry wall screws @ 230 mm interval and laying 15 mm thick densified edges calicum silicate ceiling tiles of approved texture in the grid, including, cutting/ making opening for services like diffusers, grills, light fittings, fixtures, smoke detectors etc., wherever required. Main "T runners to be suspended from ceiling using G.I. slotted cleats of size 25x35x1.6 mm fixed to ceiling with 12.5 mm dia and 50 mm long dash fasteners, 4 mm G.I. adjustable rods with galvanised steel level clips of size 85 x 30 x 0.8 mm, spaced at 1200 mm centre to centre along main "T, bottom exposed with 24 mm of all Tsections shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. Providing and laying Vitrified tiles in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.08% and conforming to IS:15622, of approved brand & manufacturer, in all colours and shade, laid with cement based high polymer modified quick set tile adhesive (water based) conforming to IS: 15477, in average 6 mm thickness, including grouting of joints (Payment for grouting of joints to be made separately). 11.49.2 Size of Tile 600x600 mm 11. 13.80 Providing and applying white cement based putly of average thickness 1 mm, of approved brand and manufacturer, over the plastered wall surface to prepare the surface even and smooth complete. 12. Wall painting with acrylic emulsion paint of approved brand and manufacture to give an even shade: 13.60.1 Two or more coats on new work 13. Painting with synthetic enamel paint of approved brand and manufacture required colour to give an even shade: 13.99.1 One or more coats on old work 14. 15.56 Dismantling old plaster or skirting raking out joints and cleaning the surface for plaster including disposal of rubbish to the dumping ground within 50 metres lead. 15. 8.31 Providing and fixing Ist quality ceramic glazed wall tiles conforming to IS: 15622 (thickness to be specif		with the help of rawl plugs at 450 mm centre to centre with 25				
thick densified edges calicum silicate ceiling tiles of approved texture in the grid, including, cutting/ making opening for services like diffusers, grills, light fittings, fixtures, smoke detectors etc., wherever required. Main 'T' runners to be suspended from ceiling using G.I. slotted cleats of size 25x35x1.6 mm fixed to ceiling with 12.5 mm dia and 50 mm long dash fasteners, 4 mm G.I. adjustable rods with galvanised steel level clips of size 85 x 30 x 0.8 mm, spaced at 1200 mm centre to centre along main 'T', bottom exposed with 24 mm of all 'Sections shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. Providing and laying Vitrified tiles in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.08% and conforming to 15:15622, of approved brand & manufacturer, in all colours and shade, laid with cement based high polymer modified quick set tile adhesive (water based) conforming to 1S: 15477, in average 6 mm thickness, including grouting of joints (Payment for grouting of joints to be made separately). 11.49.2 Size of Tile 600x600 mm 11. 13.80 Providing and applying white cement based putty of average thickness 1 mm, of approved brand and manufacturer, over the plastered wall surface to prepare the surface even and smooth complete. 12. Wall painting with acrylic emulsion paint of approved brand and manufacture of give an even shade: 13.60.1 Two or more coats on new work 13. Painting with synthetic enamel paint of approved brand and manufacture of required colour to give an even shade: 13.99.1 One or more coats on old work 14. 15.56 Dismantling old plaster or skirting raking out joints and cleaning the surface for plaster including disposal of rubbish to the dumping ground within 50 metres lead. 15. 8.31 Providing and fixing 1st quality ceramic glazed wall tiles conforming to 1S: 15622 (thickness to be specified by the manufacturer), of approved make, in all col						
texture in the grid. Including, cutting/ making opening for services like diffusers, grills, light fittings, fixtures, smoke detectors etc., wherever required. Main "T runners to be suspended from celling using G.I. slotted cleats of size 25x35x1.6 mm fixed to ceiling with 12.5 mm dia and 50 mm long dash fasteners, 4 mm G.I. adjustable rods with galvanised steel level clips of size 85 x 30 x 0.8 mm, spaced at 1200 mm centre to centre along main "T, bottom exposed with 24 mm of all Tsections shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. Providing and laying Vitrified tiles in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.08% and conforming to IS:15622, of approved brand & manufacturer, in all colours and shade, laid with cement based high polymer modified quick set tile adhesive (water based) conforming to IS:15477, in average 6 mm thickness, including grouting of joints (Payment for grouting of joints to be made separately). 11.49.2 Size of Tile 600x600 mm 11. 13.80 Providing and applying white cement based putty of average thickness 1 mm, of approved brand and manufacturer, over the plastered wall surface to prepare the surface even and smooth complete. 12. Wall painting with acrylic emulsion paint of approved brand and manufacture to give an even shade: 13.60.1 Two or more coats on new work 13. Painting with synthetic enamel paint of approved brand and manufacture of required colour to give an even shade: 13.99.1 One or more coats on old work 14. 15.56 Dismantling old plaster or skirtling raking out joints and cleaning the surface for plaster including disposal of rubbish to the dumping ground within 50 metres lead. 15. 8.31 Providing and fixing 1st quality ceramic glazed wall tiles conforming to IS: 15622 (thickness to be specified by the manufacturer), of approved make, in all colours, shades except burgundy, bottle green, black of any size as ap						
like diffusers, grills, light fittings, fixtures, smoke detectors etc., wherever required. Main 'T' runners to be suspended from ceiling using G.I. slotted cleats of size 26x35x1.6 mm fixed to ceiling with 12.5 mm dia and 50 mm long dash fasteners, 4 mm G.I. adjustable rods with galvanised steel level clips of size 85 x 30 x 0.8 mm, spaced at 1200 mm centre to centre along main 'T', bottom exposed with 24 mm of all Tsections shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. Providing and laying Vitrified tiles in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.08% and conforming to IS:15622, of approved brand & manufacturer, in all colours and shade, laid with cement based high polymer modified quick set tile adhesive (water based) conforming to IS:15477, in average 6 mm thickness, including grouting of joints (Payment for grouting of joints to be made separately). 11.49.2 Size of Tile 600x600 mm 11. 13.80 Providing and applying white cement based putty of average thickness 1 mm, of approved brand and manufacturer, over the plastered wall surface to prepare the surface even and smooth complete. 12. Wall painting with acrylic emulsion paint of approved brand and manufacture to give an even shade: 13.60.1 Two or more coats on new work 13. Painting with synthetic enamel paint of approved brand and manufacture of required colour to give an even shade: 13.99.1 One or more coats on old work 14. 15.56 Dismanting old plaster or skirting raking out joints and cleaning the surface for plaster including disposal of rubbish to the dumping ground within 50 metres lead. 15. 8.31 Providing and fixing Ist quality ceramic glazed wall tiles conforming to IS: 15622 (thickness to be specified by the manufacturer) of approved make, in all colours, shades except burgundy, bottle green, black of any size as approved by Engineer-in-Charge, in skirting, risers of steps and dados,						
wherever required. Main Ti runners to be suspended from ceiling using G.I. slotted cleats of size 25x35x1.6 mm fixed to ceiling with 12.5 mm dia and 50 mm long dash fasteners, 4 mm G.I. adjustable rods with galvanised steel level clips of size 85 x 30 x 0.8 mm, spaced at 1200 mm centre to centre along main Ti; bottom exposed with 24 mm of all Tsections shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. Providing and laying Vitrified tiles in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.08% and conforming to IS:15622, of approved brand & manufacturer, in all colours and shade, laid with cement based high polymer modified quick set tile adhesive (water based) conforming to IS: 15477, in average 6 mm thickness, including grouting of joints (Payment for grouting of joints to be made separately). 11.49.2 Size of Tile 600x600 mm 11. 13.80 Providing and applying white cement based putty of average thickness 1 mm, of approved brand and manufacturer, over the plastered wall surface to prepare the surface even and smooth complete. 12. Wall painting with acrylic emulsion paint of approved brand and manufacture to give an even shade : 13.60.1 Two or more coats on new work 13. Painting with synthetic enamel paint of approved brand and manufacture of required colour to give an even shade : 13.99.1 One or more coats on old work 14. 15.56 Dismantiling old plaster or skirting raking out joints and cleaning the surface for plaster including disposal of rubbish to the dumping ground within 50 metres lead. 15. 8.31 Providing and fixing Ist quality ceramic glazed wall tiles conforming to IS: 15622 (thickness to be specified by the manufacturer), of approved make, in all colours, shades except burgundy, bottle green, black of any size as approved by Engineer-in-Charge, in skirting, risers of steps and dados, over 12 mm thick bed of cement mortar 1:3 (1 cement : 3 coarse sand)						
using G.I. slotted cleats of size 25x35x1.6 mm fixed to ceiling with 12.5 mm dia and 50 mm long dash fasteners, 4 mm G.I. adjustable rods with galvanised steel level clips of size 85 x 30 x 0.8 mm, spaced at 1200 mm centre to centre along main T', bottom exposed with 24 mm of all Tsections shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. Providing and laying Vitrified tiles in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.08% and conforming to IS:15522, of approved brand & manufacturer, in all colours and shade, laid with cement based high polymer modified quick set tile adhesive (water based) conforming to IS: 15477, in average 6 mm thickness, including grouting of joints (Payment for grouting of joints to be made separately). 11.49.2 Size of Tile 600x600 mm 11. 13.80 Providing and applying white cement based putty of average thickness 1 mm, of approved brand and manufacturer, over the plastered wall surface to prepare the surface even and smooth complete. 12. Wall painting with acrylic emulsion paint of approved brand and manufacture to give an even shade: 13.60.1 Two or more coats on new work 13. Painting with synthetic enamel paint of approved brand and manufacture of required colour to give an even shade: 13.99.1 One or more coats on old work 14. 15.56 Dismantling old plaster or skirting raking out joints and cleaning the surface for plaster including disposal of rubbish to the dumping ground within 50 metres lead. 15. 8.31 Providing and fixing Ist quality ceramic glazed wall tiles conforming to IS: 15622 (thickness to be specified by the manufacturer), of approved make, in all colours, shades except burgundy, bottle green, black of any size as approved by Engineer-in-Charge, in skirting, risers of steps and dados, over 12 mm thick bed of cement mortar 1:3 (1 cement: 3 coarse sand) and jointing with grey cement slurry @ 3.3kg per sqm, including poi						
with 12.5 mm dia and 50 mm long dash fasteners, 4 mm G.Í. adjustable rods with galvanised steel level clips of size 85 x 30 x 0.8 mm, spaced at 1200 mm centre to centre along main 'T', bottom exposed with 24 mm of all Tsections shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. Providing and laying Vitrified tiles in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.08% and conforming to IS:15622, of approved brand & manufacturer, in all colours and shade, laid with cement based high polymer modified quick set tile adhesive (water based) conforming to IS: 15477, in average 6 mm thickness, including grouting of joints to be made separately). 11.49.2 Size of Tile 600x600 mm 11. 13.80 Providing and applying white cement based putty of average thickness 1 mm, of approved brand and manufacturer, over the plastered wall surface to prepare the surface even and smooth complete. 12. Wall painting with acrylic emulsion paint of approved brand and manufacture to give an even shade: 13.60.1 Two or more coats on new work 13. Painting with synthetic enamel paint of approved brand and manufacture of required colour to give an even shade: 13.99.1 One or more coats on old work 14. 15.56 Dismantling old plaster or skirting raking out joints and cleaning the surface for plaster including disposal of rubbish to the dumping ground within 50 metres lead. 15. 8.31 Providing and fixing Ist quality ceramic glazed wall tiles conforming to IS: 15622 (thickness to be specified by the manufacturer), of approved make, in all colours, shades except burgundy, bottle green, black of any size as approved by Engineer-in-Charge, in skirting, risers of steps and dados, over 12 mm thick bed of cement mortar 1:3 (1 cement : 3 coarse sand) and jointing with grey cement slurry @ 3.3kg per sqm, including pointing in white cement mixed with pigment of matching shade complete.						
adjustable rods with galvanised steel level clips of size 85 x 30 x 0.8 mm, spaced at 1200 mm centre to centre along main 'T', bottom exposed with 24 mm of all Tsections shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. Providing and laying Vitrified tiles in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.08% and conforming to IS:15622, of approved brand & manufacturer, in all colours and shade, laid with cement based high polymer modified quick set tile adhesive (water based) conforming to IS: 15477, in average 6 mm thickness, including grouting of joints (Payment for grouting of joints to be made separately). 11.49.2 Size of Tile 600x600 mm 11. 13.80 Providing and applying white cement based putty of average thickness 1 mm, of approved brand and manufacturer, over the plastered wall surface to prepare the surface even and smooth complete. 12. Wall painting with acrylic emulsion paint of approved brand and manufacture to give an even shade: 13.60.1 Two or more coats on new work 13. Painting with synthetic enamel paint of approved brand and manufacture of required colour to give an even shade: 13.99.1 One or more coats on old work 14. 15.56 Dismantling old plaster or skirting raking out joints and cleaning the surface for plaster including disposal of rubbish to the dumping ground within 50 metres lead. 15. 8.31 Providing and fixing Ist quality ceramic glazed wall tiles conforming to IS: 15622 (thickness to be specified by the manufacturer), of approved make, in all colours, shades except burgundy, bottle green, black of any size as approved by Engineer-in-Charge, in skirting, risers of steps and dados, over 12 mm thick bed of cement mortar 1:3 (1 cement: 3 coarse sand) and jointing in white cement wixed with pigment of matching shade complete. 16. Disposal of malba/building rubbish by mechanical mean @ 300 cft per truck including loading unloading & sta						
0.8 mm, spaced at 1200 mm centre to centre along main 'T', bottom exposed with 24 mm of all Tsections shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. Providing and laying Vitrified lites in floor with different sizes (thickness to be specified by the manufacturer), with water absorption less than 0.08% and conforming to IS:15622, of approved brand & manufacturer, in all colours and shade, laid with cement based high polymer modified quick set tile adhesive (water based) conforming to IS: 15477, in average 6 mm thickness, including grouting of joints (Payment for grouting of joints to be made separately). 11.49.2 Size of Tile 600x600 mm 11. 13.80 Providing and applying white cement based putty of average thickness 1 mm, of approved brand and manufacturer, over the plastered wall surface to prepare the surface even and smooth complete. 12. Wall painting with acrylic emulsion paint of approved brand and manufacture to give an even shade: 13.60.1 Two or more coats on new work 13. Painting with synthetic enamel paint of approved brand and manufacture of required colour to give an even shade: 13.99.1 One or more coats on old work 14. 15.56 Dismantling old plaster or skirting raking out joints and cleaning the surface for plaster including disposal of rubbish to the dumping ground within 50 metres lead. 15. 8.31 Providing and fixing Ist quality ceramic glazed wall tiles conforming to IS: 15622 (thickness to be specified by the manufacturer), of approved make, in all colours, shades except burgundy, bottle green, black of any size as approved by Engineer-in-Charge, in skirting, risers of steps and dados, over 12 mm thick bed of cement mortar 1:3 (1 cement : 3 coarse sand) and jointing with grey cement slurry @ 3.3kg per sqm, including pointing in white cement mixed with pigment of matching shade complete. 16. Disposal of malba/building rubbish by mechanical mean @ 300 cft per truck including loading unloading & stacking b						
bottom exposed with 24 mm of all Tsections shall be pre-painted with polyster baked paint, for all heights, as per specifications, drawings and as directed by Engineer-in-Charge. 10. - 1. Bidder should do Online Enrolment in this Portal using the option Click Here to Enroll available in the Home Page. Then the Digital Signature enrolment has to be done with the e-token, after logging into the portal. The e-token may be obtained from one of the authorized Certifying Authorities such as eMudhraCA/GNFC/IDRBT/MtnlTrustline/SafeScrpt/TCS.
- 2. Bidder then logs into the portal giving user id / password chosen during enrolment.
- 3. The e-token that is registered should be used by the bidder and should not be misused by others.
- 4. DSC once mapped to an account cannot be remapped to any other account. It can only be Inactivated.
- 5. The Bidders can update well in advance, the documents such as certificates, purchase order details etc., under My Documents option and these can be selected as per tender requirements and then attached along with bid documents during bid submission. This will ensure lesser upload of bid documents.
- 6. After downloading / getting the tender schedules, the Bidder should go through them carefully and then submit the documents as per the tender document, otherwise, the bid will be rejected.
- 7. The BOQ template must not be modified/replaced by the bidder and the same should be uploaded after filling the relevant coulmns, else the bidder is liable to be rejected for that tender. Bidders are allowed to enter the Bidder Name and Values only.
- 3. If there are any clarifications, this may be obtained online through the e-Procurement Portal, or through the contact details given in the tender document. Bidder should take into account of the corrigendum published before submitting the bids online.
- 9. Bidder, in advance, should prepare the bid documents to be submitted as indicated in the tender schedule and they should be in PDF/XLS/RAR/DWF formats. If there is more than one document, they can be clubbed together
- 10. Bidder should arrange for the EMD as specified in the tender. The original should be posted/couriered/given in person to the Tender Inviting Authority, within the bid submission date and time for the tender
- 11. The bidder reads the terms and conditions and accepts the same to proceed further to submit the bids.
- 12. The bidder has to submit the tender document(s) online well in advance before the prescribed time to avoid any delay or problem during the bid submission process.
- 13. There is no limit on the size of the file uploaded at the server end. However, the upload is decided on the Memory available at the Client System as well as the Network bandwidth available at the client side at that point of time. In order to reduce the file size, bidders are suggested to scan the documents in 75-100 DPI so that the clarity is maintained and also the size of file also gets reduced. This will help in quick uploading even at very low bandwidth speeds.
- 14. It is important to note that, the bidder has to Click on the Freeze Bid Button, to ensure that he/she completes the Bid Submission Process. Bids Which are not Frozen are considered as Incomplete/Invalid bids and are not considered for evaluation purposes.
- 15. In case of Offline payments, the details of the Earnest Money Deposit(EMD) document submitted physically to the Department and the scanned copies furnished at the time of bid submission online should be the same otherwise the Tender will be summarily rejected.
- 16. The Tender Inviting Authority (TIA) will not be held responsible for any sort of delay or the difficulties faced during the submission of bids online by the bidders due to local issues.
- 17. The bidder may submit the bid documents online mode only, through this portal. Offline documents will not be handled through this system.
- 18. At the time of freezing the bid, the e-Procurement system will give a successful bid updation message after uploading all the bid documents submitted and then a bid summary will be shown with the bid no, date & time of submission of the bid with all other relevant details. The documents submitted by the bidders will be digitally signed using the e-token of the bidder and then submitted.
- 19. After the bid submission, the bid summary has to be printed and kept as an acknowledgement as a token of the submission of the bid. The bid summary will act as a proof of bid submission for a tender floated and will also act as an entry point to participate in the bid opening event.
- 20. Successful bid submission from the system means, the bids as uploaded by the bidder is received and stored in the system. System does not certify for its correctness.
- 21. The bidder should see that the bid documents submitted should be free from virus and if the documents could not be opened, due to virus, during tender opening, the bid is liable to be rejected.
- 22. The time that is displayed from the server clock at the top of the tender Portal, will be valid for all actions of requesting bid submission, bid opening etc., in the e-Procurement portal. The Time followed in this portal is as per Indian Standard Time (IST) which is GMT+5:30. The bidders should adhere to this time during bid submission.
- 23. All the data being entered by the bidders would be encrypted at the client end, and the software uses PKI encryption techniques to ensure the secrecy of the data. The data entered will not be viewable by unauthorized persons during bid submission and not viewable by any one until the time of bid opening. Overall, the submitted bid documents become readable only after the tender opening by the authorized individual.
- 24. During transmission of bid document, the confidentiality of the bids is maintained since the data is transferred over secured Socket Layer(SSL) with 256 bit encryption technology. Data encryption of sensitive fields is also done.
- 25. The bidders are requested to submit the bids through online eProcurement system to the TIA well before the bid submission end date and time (as per Server System Clock.

List of Documents to be scanned and uploaded within the period of bid submission:

- 1. Demand draft / Pay order / FDR / Bank Guarantee of any Scheduled Bank against EMD.
- 2. Receipt of EMD & Tender Fee.
- 3. Certificate of Registration for GST.
- 4. Copy of PAN.
- 5. Enlistment of CPWD, MES, Railways, MCD, PWD or other Central/State Govt./Semi Govt.
- 6. Experience of two similar nature of works in last three years.
