WORKSHOP

The Division of Genetics is organizing a 2 days offline workshop on “**Utilizing germplasm to identify gene(s)/QTL(s) for root nodules in food legumes**” sponsored under the DST-SERB funded project entitled “**Utilization of chickpea germplasm to identify gene(s)/QTL for nodulation through association mapping**” during April 5-6, 2023. Interested faculties working in the area of Genetics, Microbiology, Statistics and Molecular Biology are requested to apply at Google link <https://forms.gle/8pfptiv1taET4Nx36>. The 25 candidates will be chosen on first come basis from nearby organizations. The selected candidates will have to bear their travel, lodging and boarding expenses at their own end. However, organizers will liaison the stay arrangements on request of participants’ prior intimation. There is no registration fee.

The last date to submit the online application through google link is March 31, 2023.
